Sport and recreation management tailors management to the sport and recreation sectors. 'Sport' and 'recreation' encompass a wide range of activities which take place in a variety of settings. These sectors comprise not only indoor sport at managed facilities (i.e., recreation, sport and events centres), but also outdoor landscapes used for recreation (i.e., swimming pools, playgrounds, botanic gardens, sports fields, and open spaces, including parks and forests, national parks, harbours, beaches, rivers, and lakes). Sport and recreation professionals are passionate in their roles, they are inspired to share what sport and recreation has to offer to people of all ages.
